

It can happen that you may witness a rescue helicopter landing next to you. What to do in such a situation?

Actually, it is easy, if you observe the following 5 rules:

1

Form a "Y" for "YES", the patient is right here!

2

Attention: Light objects fly away!

3

Keep your distance!

4

Never walk or drive under a rotor!

5

Never walk behind a helicopter!
